

**Safeguards in place
to help you
*Bank Differently***

-  Protection shields are installed at each teller window and desk.
-  Hand sanitizer stations are available at every branch, close to the entrance.
-  While not required for customers or employees, disposable masks and gloves are conveniently located near branch entrances.
-  Floor decals are installed to help remind patrons of distancing guidelines.
-  Employees are trained on proper sanitization techniques.
-  Our Rabbit Trail location will remain drive-up only at this time.

It's not business as usual.

There is nothing more important than the health and well-being of our customers and employees. We understand these are difficult times, and knowing the right way to navigate daily life looks different to each individual. While our branch lobbies are open, please know we are doing everything in our power to ensure your safety and comfort.

If you're not ready to visit us inside our branches, our drive-up and curbside services are still available. Employees will wear face coverings if banking curbside is preferred.

This is not business as usual - even when it is.
